ABOUT ME

Motivated Software Engineering graduate with hands-on frontend development experience across multiple roles and a growing passion for Artificial Intelligence. Seeking an entry-level AI or frontend role where I can apply my technical foundation, collaborate with skilled teams, and build impactful products.

EDUCATION

BS Software Engineering

Sep 2023 – Sep 2026

Liverpool John Moores University

via Beaconhouse International College, Lahore

- International degree delivered locally through Beaconhouse International College.
- Maintaining approximately 80% throughout the degree.

EXPERIENCE

Frontend Development Intern

Internship

SWATI TECH, Lahore

- Collaborated with the React team on live client projects.
- Developed responsive UI components using HTML, CSS, and Bootstrap.
- Gained practical experience with team-based development workflows.

IT Department Intern

1 Month

Sonex Fans, Lahore

- Analysed and reviewed the company's existing website as part of an IT initiative.
- Designed dummy website mockups using HTML and CSS under supervisor guidance.
- Gained insight into how IT supports operations in a manufacturing environment.

PROJECTS

Nightclub Promotion Website

University Project · HTML, CSS, Bootstrap

Designed a visually engaging promotional website with responsive layout, bold typography, and modern UI patterns.

E-Commerce Website

University Project · HTML, CSS, Bootstrap

Built a fully functional e-commerce frontend featuring product listings, navigation menus, and a polished checkout interface.
